

# EXPOSED

Corporations have been exposed. There is talk everywhere about the extent of corporate greed in America and how it led us into the worst economic crisis since the Great Depression. To recover our economy, we need to restore the balance of power between workers and corporations.

**How? By passing the Employee Free Choice Act. This legislation will:**

- Streamline the organizing process by giving workers the decision on using majority sign up or a secret ballot
- Increase the penalties for companies that abuse workers for exercising their freedom to organize
- Provide mediation and arbitration to help workers and employers come to agreement on a first contract

**Big business is lobbying hard against the Employee Free Choice Act. Make sure your Senator hears from you, *the constituent*. Fight back to restore balance in America.**

Remember, the Employee Free Choice Act will raise the living standards of today's union members and workers who become members in the future. There is strength in numbers, so do your part to help the union movement grow.
